Photographer

Sophie Shannon  
Photography  
Assistant

Michael Shannon  
Photography  
Assistant

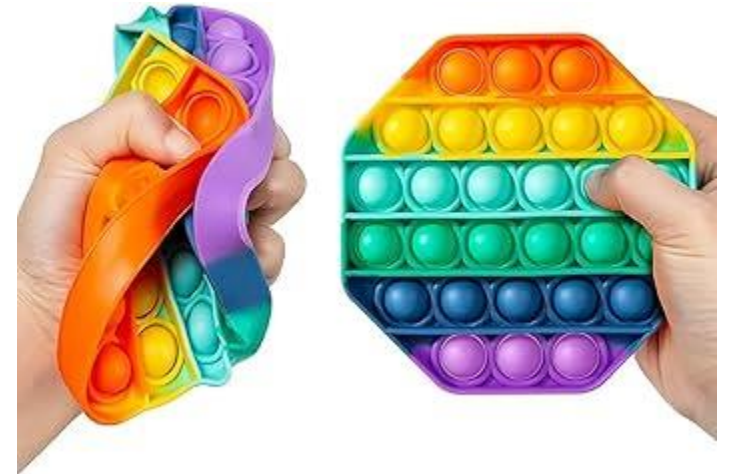

# What should I bring

Weighted  
Blanket

Favourite  
Toy

Fidget  
Toys

# What does the Photoshoot look like?

# Will it be Noisy or Loud?

The camera is quiet but every time we press the button to take a photograph the lights give a little beep. On some photoshoots we play music to relax you or create a fun atmosphere. If you are sensitive to sound, please let us know. Then you can wear your ear defenders or we will have disposable earplugs available.

# Will it be too Bright

We use lights to brighten the scene and ensure we capture every wonderful detail of the people we photograph. If you think it is too bright, we will turn it down or you can wear a baseball hat. We can provide you with one on the day.

# Where do I Stand

You will stand in front of the camera with the big light in front of you and the background and two smaller lights behind you.

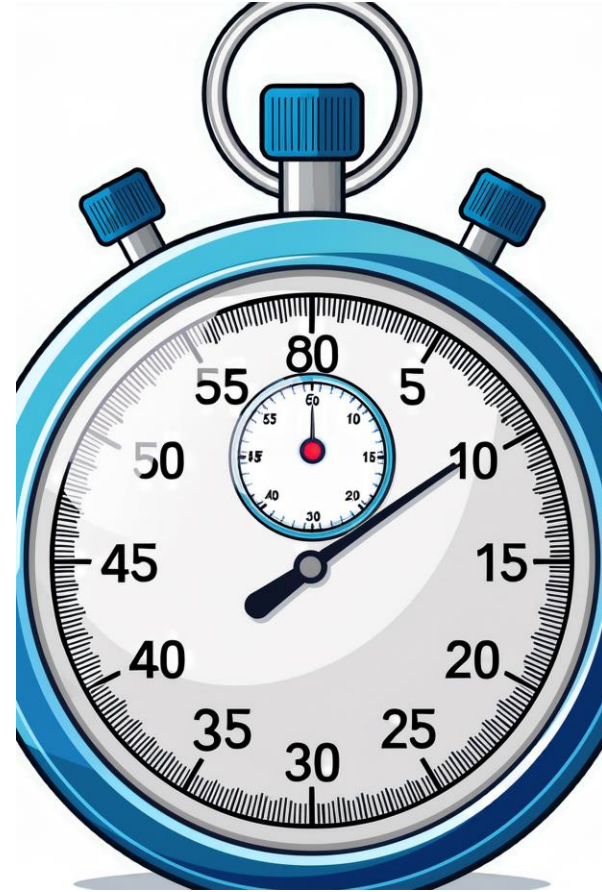

# How long does it take?

We aim to spend no longer than ten minutes with you and you are always welcome to take a break

Mostly we take 1-2 minutes

# Can I move around ?

If you need a break to reset  
you are welcome to move around  
beside the photoshoot – we will show  
you a quiet space.

# Group Photographs

There may be a group photography for your family, School or Workplace.  
We will tell you beforehand. If you would like to sit or stand beside a specific person do let us know.

# When its over

When you are finished, you can return to what you were doing. You may want to take a moment to relax and process the event. Your photos will be on a secure password protected area of the Peninsula Photography Website for you to select.
